Attention: Planning Board
Subject: Proposed entrance for SBL 54.1-1-16.310

Dear members of the board,

As you are aware, the County of Ulster has the responsibility for all details of access to a County Road as per section 136 of Highway Law.

Please be advised we have inspected the location for the proposed access as shown on plans from Medenbach and Eggers, dated September 23rd, 2022. If the planning board should approve this subdivision, we would be in conceptual acceptance of the subdivision curb cut as proposed.

Upon approval from the planning board, the applicant/owner must apply for a permit from this department and at such time shall be issued the conditions under which the installation shall be performed. Please be advised the approved permit is required from this department prior to any construction.

If there are any questions, concerns or if any further clarification is required, please contact my office at the information below.

Sincerely,

Adam Deitz
