

Event Hosting Proposal **For Perch Cottages**

Thank you for adding us to this month's agenda. We are looking to begin hosting events as we have had several requests for quite a few different types of occasions. These include but are not limited to family reunions, weddings, celebrations, outdoor educational events such as fly fishing workshops, photography workshops, and wellness retreats such as yoga and meditation.

The space will accommodate tents with mobile lavatories if required. Outside food and drink will be handled by professional caterers who are subject to their own BOH approval. The Perch will provide the space along with parking and the guests will hire their own reputable rental and catering companies if needed. The Perch will require guests to purchase event insurance on top of the commercial insurance that is already in place.

We look forward to meeting with you April 2nd.

Warmly,
Hugh Cummings
