

04/15/2024

Dear Members of the Planning Board of the Town of Olive,

I am writing to you with a vision deeply rooted in the heart of the community and the cherished environment that surrounds us. My ambition is to introduce a small coffee roasting company that aligns with the values and aspirations of the town of Olive.

At the core of my proposal is a commitment to 100% certified organic coffee. This commitment is not just a label to me; it is a testament to my company's dedication to health, sustainability, and respect for the environment that we all hold dear. By choosing to support organic farming practices, we can take a stand against harmful pesticides and promote biodiversity, ensuring our love for nature is reflected in every bag of coffee we produce.

Understanding the importance of harmony with our surroundings, we propose the use of cutting-edge electrostatic exhaust filtration technology. This system will effectively eliminate any smoke or odor from the roasting process, ensuring that our operations have a minimal footprint. Our goal is to coexist peacefully with our neighbors and the natural beauty of Olive.

Our business will start small, only operating a few days a week with myself as the only employee, roasting coffee for local business and online customers. I expect no increase in traffic or impact on the area since we will not be open to the public.

Thank you for considering our proposal. We look forward to the opportunity to contribute positively to the Town of Olive and to lay the foundations for a legacy that celebrates our shared values and commitment to sustainability.

Warm regards,

A handwritten signature in black ink that reads "Steve". The signature is stylized and cursive.
